

# GoldenVilla (VILLA) - Whitepaper

## 1. Introduction

GoldenVilla (VILLA) is a meme coin project built on the Solana blockchain with an elegant twist. Unlike typical meme coins that exist purely for entertainment, VILLA combines fun with a premium lifestyle vibe-bringing the feeling of tropical luxury and relaxation, like a holiday in a lavish villa.

## 2. Mission & Vision

**Mission:** To create a digital space for a community that values fun, design, and exclusivity within the meme coin ecosystem.

**Vision:** To become the strongest-branded meme coin with the most loyal community on the Solana network, while building value through creativity and lifestyle.

## 3. Technology

Blockchain: Solana

Token Type: SPL Token

Maximum Supply: 50,000,000 VILLA

Smart Contract: No staking or heavy utility features. Focus on community distribution and branding.

## 4. Token Distribution

Liquidity Pool: 40% - 20,000,000

## 5. Roadmap

Phase 1 - Foundation:

- Launch of VILLA token on Solana network
- Branding design & tropical gold logo
- One-page website (goldenvilla.io)

#### Phase 2 - Community:

- Social media activation
- Collaborations with content creators and NFT designers

#### Phase 3 - Expansion:

- Listings on DEX and CEX such as Jupiter, Raydium, Get.io, Bitget, MEXC, and Bybit
- Release of VILLA edition NFT collection

#### Phase 4 - Evolution:

- Potential integration with metaverse or tropical-themed games
- Collaborations with other crypto/lifestyle projects

### 6. Why Choose VILLA?

- Unique branding: a blend of meme and elegant lifestyle.
- Fast and low-cost: powered by Solana network.
- Limited supply: only 50 million tokens.
- Focused community: not just hype, but also style.

### 7. Core Team

GoldenVilla is developed by an independent creative team with experience in design, crypto, and online communities. The team remains anonymous to maintain the meme spirit and decentralization, while staying professional.
